**VOLUNTEER**♥**NOW**®

*volunteers change* EVERYTHING®

## Where schools and communities connect.

As your school district strives to provide an excellent education for every child, you need a simple and effective way to engage and manage the volunteers you rely on to support teachers and students.

**VOLY.org is personalized for your school district, creating visibility and recognition for your key initiatives and fostering volunteer engagement.**

VOLY.org is an easy-to-use, web-based system that connects school and community partner volunteers with hundreds of opportunities to put their passion for education to work. This fully-hosted, cloud-based solution lets your volunteers quickly and easily sign up for opportunities that match their personal missions and individual schedules—from their computers or their mobile devices.

## Share unlimited volunteer opportunities.

- Engage your parents and partners through your unique district-level VOLY.org landing page and individual pages for each campus.
- Post unlimited one-time or repeating volunteer opportunities. Use photos to capture the attention of individuals and groups who share a passion for education.

## Track and manage volunteers – on a computer or mobile device.

- VOLY.org provides automated tools for tracking, scheduling and reporting volunteer activity. Report data can be easily exported for presentation purposes.
- Event rosters, pre-assigned hours and remote check-in make capturing volunteer hours a breeze. Send automatic reminders to each volunteer you approve, and thank you notes when hours are reported.

**VOLY.org eliminates the need to manage individual spreadsheets and databases, easing the administrative budget of tracking, managing, and reporting volunteers.**

- Your district's dashboard provides at-a-glance views for upcoming needs and historical data of your volunteer usage, making volunteer administration a snap.

## District volunteers and VOLY.org: the perfect match.

It's simple to create, roll out and manage your specific district and school-sponsored activities. As volunteers participate, the system "learns" their interests and sends them recurring and new opportunities of a similar nature via a weekly email, encouraging them to continue and increase their volunteer efforts.

**VOLY.org enables the perfect match between your school or district volunteers.**

## Custom solutions for your unique needs.

- Develop multiple applications for different volunteer positions to automate volunteer screening and selection.
- Online training can be integrated to allow interested volunteers to quickly and easily complete your requirements, saving you valuable staff time.
- Custom API (Application Program Interface) development is available to allow the exchange of data from VOLY.org with other district systems.

## Save time and money.

Simplify and standardize your volunteer management across your district through VOLY.org. Engaging and managing a volunteer workforce on numerous campuses is time-consuming, but the right tool makes the job much easier and less costly. VOLY.org can help you create faster, more frequent and more meaningful engagement for your volunteers, improving efficiency for district level and campus level volunteer coordinators. VOLY.org makes it easier for individuals and groups to become involved in schools and to place volunteers where they can be the most effective for students.

# Your trusted connection to vital community needs.

VOLY.org was designed by VolunteerNow—the people who have been immersed in the volunteering world for the past four decades. We continue to collaborate with our users, adding new features to provide the most cost effective, easiest to use volunteer engagement and management solution available today.

You can also trust VOLY.org to protect the security of all private volunteer information against unauthorized access, because the platform employs state-of-the-art, 256-bit encryption.

## VOLY.org at-a-glance
