VOLUNTEER♥**NOW**®

volunteers change EVERYTHING®

Where nonprofits and volunteers connect.

As you support the many nonprofit agencies striving to affect positive change in your community, you need a resource that helps agencies and volunteers find each other.

An easy-to-use, web-based service, VOLY.org offers you a customized page for your volunteer center, where daily visitors can view and respond to opportunities posted by your member nonprofits. This fully hosted, cloud-based solution lets volunteers quickly find and easily sign up for opportunities that match their personal missions and individual schedules—from their computer or a mobile device.

Your dedicated volunteer center page creates visibility, recognition, and engagement. It's optimized for viewing on mobile devices.

Share unlimited volunteer opportunities.

- Your member nonprofit agencies may post any number of one-time or ongoing volunteer opportunities, with photos, to capture the attention of individuals and groups who share a passion for your cause.
- Easily connect with individuals, teams and corporations who care about improving your community.

Match the right volunteers with the right opportunities.

- Multiple filters and a built-in map help automate the prescreening of volunteer applicants, so those who respond have the interest, skills, and availability to meet your needs.
- Every posting has a dedicated URL, so you can link volunteers directly to specific opportunities.
- As volunteers participate, the system “learns” their interests and sends them recurring and new opportunities of a similar nature via a weekly email from your volunteer center, giving your member nonprofit agencies an ongoing flow of participants.

Volunteers prescreen themselves using comprehensive filters on VOLY.org to find opportunities that match their skills and passions.

Quickly and easily track and manage volunteers, on a computer or a mobile device.

- Use built-in, automated tools for tracking, scheduling and reporting volunteer activity. Report data can be easily exported for presentation purposes.
- Event rosters, pre-assigned hours, and remote check-in make capturing volunteer hours a breeze. Your agencies can even send automatic reminders to each volunteer they approve, and thank you notes when hours are reported.

VOLY.org eliminates the need to manage individual spreadsheets and databases, easing the administrative burden of recruiting, tracking, managing and reporting volunteer activity.

- Each agency has an individualized dashboard that provides at-a-glance views for upcoming needs, and historical data of their volunteer usage.

When causes and people align, your organization achieves true impact.

When you use VOLY.org to support the recruiting and management of volunteers, you'll see an immediate lift in productivity and participation. It takes just minutes to post a volunteer opportunity, using a simple, easy-to-follow user interface, and the responses

start flowing in. VOLY.org also integrates with third-party applications such as background checking and reporting tools.

Participating agencies are thrilled with the number of volunteer referrals they have been receiving with VOLY.org. Some even report receiving referrals within minutes of posting their needs.

Your trusted connection to vital community needs.

VOLY.org was designed by VolunteerNow—the people who have been immersed in the volunteering world for the past four decades. We continue to collaborate with our users, adding new features to provide the most cost effective, easiest to use volunteer engagement and management solution available today.

You can also trust VOLY.org to protect the security of all private volunteer information against unauthorized access, because the platform employs state-of-the-art, 256-bit encryption.
